## Community Animation Happening

The Center for Human-Computer Interaction at Penn State is looking for volunteers to test a mobile application for **Android** devices.

The purpose of this study is to use popular mobile technology to host direct meet-ups among community members and discuss civic interests.

Participation involves:

- Installing an app on your Android device
- Attend in-person event to test app
- Complete a brief survey about your experience

Your responses will be stored on password-protected servers. Data will be analyzed and reported using pseudonyms.

**When? October 21st - 4 pm - ABP (Au Bon Pain)**

If you would like to take part in this study, please register your participation here:
